

Urban Farming

Greater food independence, better health

Everything you need to grow vegetables, herbs and flowers at your home, office or rooftop.

Urban Farming – benefits

- ✓ **The Urban Farming Starter Pack** (UFSP, see contents below) is a **complete food growing kit** that enables you to start growing food within 60 minutes* – a key step to living a more sustainable life
- ✓ **Get healthy!** – You determine what goes into your food, not agriculture companies
- ✓ **Integrate on-site food production** of near-organic vegetables into your environment program
- ✓ **Boost food independence** – Reduce dependence on store-bought vegetables
- ✓ **Create beauty** – Bring life and natural beauty to virtually any sunlit space.

* Depending on location, climate, etc.

Rooftop gardening – planet-friendly food production

- Instill in staff a strong sense of the importance and value of nature, weather and nature's cycles
- Bring farming to the city and slash food miles, reduce pollution, and help spread critical food production skills
- Staff can set up gardens and grow food for themselves, events, or even sell 'company brand' vegetables
- Encourage staff bonding in lunch breaks and after hours where staff swap gardening tips and food.

Urban Farming Starter Packs contain

- ✓ **10 planter boxes** (approx. 20 x 60 cm)
- ✓ **Soil** for all planter boxes and **seeds** of customer's choice
- ✓ **Full instructions and planting guides**
- ✓ **Gardening tools:** trowel, hand hoe, watering container, plant label sticks, pot stones, etc.
- ✓ **Full installation** – We can set up your garden for you
- ✓ **Maintenance:** We provide ongoing instructions & advice
- ✓ **Informative reports:** 1/ How to Grow Plants in Pots
2/ Feeding the Future – 15 Ways to Grow Food
3/ How to Set up a Rain Collector.

The UFSP is also:

- ✓ **Fully customizable** – You decide planter box quantity & seeds
- ✓ **Delivered to your home or office** [courier fee charged].

PRICE: ¥19,995 per pack + ¥5,000/hour consulting fee.
